2022

WILFRID LAURIER UNIVERSITY

Bachelor of Arts, Computer Science
2018

PROFILE

Dedicated Full Stack Web Developer with over five years of experience specializing in database administration, web design, and development. Proficient in modern web technologies including React, Express.js, and JavaScript, with a strong ability to integrate and manage APIs and payment systems. Demonstrates excellent problem-solving abilities and a keen attention to detail. A collaborative team player committed to delivering high-quality solutions that enhance user experience and streamline business operations.

EXPERIENCE

WEB DEVELOPER / FULL STACK ENGINEER

2022 - 2024

- Website Maintenance & Enhancements: Routinely updated and enhanced functionality on a Wix-based site, integrating custom JavaScript to extend capabilities.
- Led Full Website Rebuild: Directed the complete redesign using React and Express.js, focusing on performance and user engagement.
  - Interactive UI Development: Crafted responsive and dynamic interfaces to enhance user interaction and accessibility.
  - Back-End Efficiency: Optimized data handling and server-side logic, improving application responsiveness and reliability.
  - Advanced Features Implementation: Designed a real-time interactive calendar and class management system, and integrated Stripe for secure transactions.
  - Custom Authentication Setup: Engineered a multifaceted authentication system with traditional and Google sign-in options, ensuring robust security.
  - API Integration and Data Security: Integrated external APIs and implemented best practices for data security, maintaining high standards for user data protection.
